

Harmony 520 & 720

Ebb & Flow

ABOUT

The self contained 'Harmony' Flowform is a design inspired by the principles of 'Feng Shui'.

The water enters the form across its surface, then flows from side to side creating subtle rhythmical wave patterns before leaving in vortical spirals through the central holes. This feature can provide a striking focal point for a wide range of settings including public spaces, gardens, lawns, borders, rockeries and patios. It can also be used internally in offices, reception areas and conservatories.

The sculpture can be installed either above ground or below ground. It can provide a striking focal point in a wide range of settings, including public spaces, gardens, lawns, borders, rockeries, and patios. It can also be used internally in offices, reception areas and conservatories. Setting it in a raised bed (enclosed with a low stone wall or timber surround) will allow people to engage with the sculpture nearer to eye level. The sculpture may also be purchased with the intention of installing it in or next to an existing pond. In this case, Ebb & Flow Ltd. can supply the sculpture, pump etc. without the Droplet Pebble Pool. Please get in touch for further advice.

Harmony Technical Information

	Harmony 520	Harmony 720
Flow rate:	34 litres/min	46 litres/min
Diameter:	520 mm	720mm
Height:	130 mm	140mm
Weight:	25 kg	40 kg
Material:	Cast granite stone with hand etched finish	
Colours:	Grey-green, red or cream	

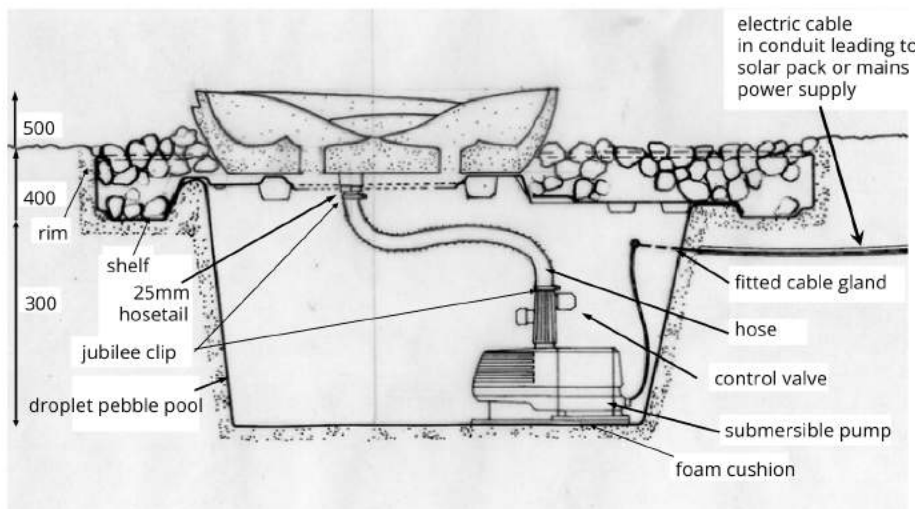

Design © Iris Water & Design

120 litre Droplet Pebble Pool :

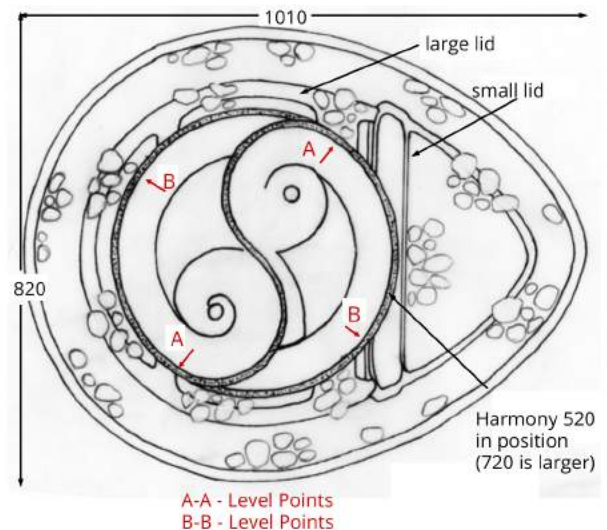

Width:	820 mm
Length:	1010 mm
Height:	410 mm
Weight:	9.5 kg
Material:	Tough roto-moulded medium density recyclable polyethylene
